

LC:- Can I explain Physical and Human Geography?

KS - Consider impact of Human Geography.

Design and label a bridge for Crater Lake to access Wizard Island.

Consider the bridge type, the distance required and materials you will use.

Explain the type of bridge you have chosen, why you have chosen this and why you have used the materials you have.

*[You MUST consider the Physical environmental impact and the Human Geographical impact of you bridge]*

Why I have chosen this design (type, materials, impact)
