|-------------------|---|
| amphibians | Amphibians live in the water as babies and on land as they grow older. They have smooth, slimy skin. |
| birds | All birds have a beak, two legs, feathers and wings. |
| fish | Fish live and breathe under water. They have scaly skin, fins to help them swim and they breathe through gills. |
| mammals | Mammals are animals that breathe air, grow hair or fur and feed on their mother's milk as a baby. |
| reptiles | All reptiles breathe air. They have scales on their skin. |
| carnivore | Animals that mostly eat other animals (meat) are carnivores. |
| herbivore | Animals that only eat plants are herbivores. |
| omnivore | Animals that eat both plants and other animals are omnivores. |

| | |
|----------------|---|
| sight | Your eyes let you see all the things around you. |
| hearing | Your ears let you listen to all the things around you. Your brain is able to tell what different sounds are. |
| touch | Your skin gives you the sense of touch. You can tell if something is warm, cold, smooth or rough without even looking at it! |
| taste | Your sense of taste comes from your tongue. You can tell if something tastes bitter or sweet. You might have some tastes you like and some you don't. |
| smell | You smell using your nose. Your nose can tell if things smell nice or not nice. |
