

Deforestation MUST stop

What's Happening?

In the Amazon Rainforest, the area the size of a football pitch is disappearing every second. This means that up to **2000 football pitches of land is vanishing EVERY DAY!**

Don't you think it's time we do something about it, before it's too late?

The Effects

The **devastating effects** to this beautiful rainforest, not only impact the rainforest, but **everyone** in the world, including you!

Loss of habitat means loss of wildlife. Predictions suggest 137 plant, animal and insect species are lost every day due to rainforest deforestation.

More carbon dioxide is released into the atmosphere

A decrease in indigenous people.

Estimates suggest that **80% of indigenous people in the Amazon have died**. Those remaining have been forced away by the construction of roads, ranches and reservoirs

What can YOU do to help protect this exceptional and diverse rainforest?

1. ASK YOUR MP TO SPEAK UP

We must make the government listen. Laws need to change!

2. DONATE TO WWF AMAZON APPEAL

Your money will go to support indigenous communities and campaigns to put an end to deforestation

4. SPREAD THE WORD

Make sure your friends, family and followers know about the latest situation. spotlight on the issues.

3. EDUCATE YOURSELF

The more we know about our forests – and the causes of their destruction – the more we can help spread the word and put a spotlight on the issues.

5. BE PART OF THE CHANGE

Become a member and support our work in the Amazon.
