

## Art and Design Curriculum Overview

At Inspire Academy, we aim to provide children with regular opportunities to think imaginatively and creatively. Our Art and Design curriculum allows the children to think and act as Artists, Makers and Designers, by engaging and inspiring our pupils to experiment and develop the skills required to create their own works of art. By teaching our pupils to reflect and evaluate their own and others' work, we believe that children will know how Art and Design contributes, shapes and reflects our history and the way we that we live today.
