

My work in Maths on data and comparison will help me with this unit, but this will be the first time I have presented data online.

This unit will help me with my Year 3 unit on Branching Databases.

**Key information**

**My own pictogram**

Vocabulary	
<b>Data</b>	Information that has been collected
<b>Pictogram</b>	A chart that uses pictures to present data
<b>Attributes</b>	Features of the subjects we have collected data on

**Online Safety Focus**

- Know that we must ask someone's **permission** before sharing **data** about them
- Know that we shouldn't share **personal data** that should remain **private**
- Know that it is ok to say no if you're not sure about sharing **data**

**Key Computing Skills and Knowledge**

- Know that **data** can be presented in different formats e.g. **tally charts, pictograms, block diagrams etc**
- Know that we can present **data** on paper or on a **computer**
- Know that **data** can be collected to help people make decisions e.g. favourite fruit tells us how much of which fruit to buy
- Know that it is often quicker and easier to present **data** using a **computer**
- Know how to create an **online pictogram** using **J2Data**
- Know that organising **data** into **charts** helps us to make sense of the **data** and answer questions on it
