

My Year 3 unit on Animations, and my Photo Editing unit from earlier in Year 4, will help me with this unit.

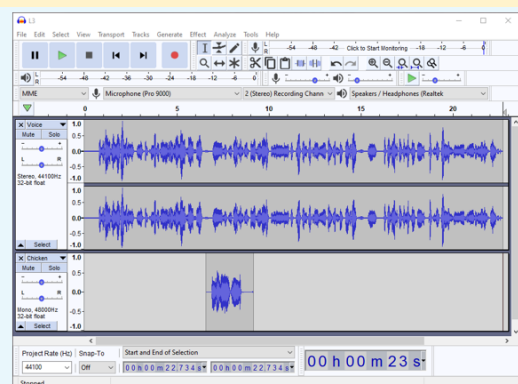

This unit will help me with my Video Editing unit in Year 5.

Key information

You're going to make your own layered recording.

1. Record your own voice track
2. Import a sound effect
3. Move the sound effect to the right location
4. Adjust the volume of tracks if needed

Listen to your recording between each step.

Vocabulary

Audio	Another word for sound, especially when talking about sound that has been recorded
Input	Something that takes sound in / records sound e.g. a microphone
Output	Something that puts sound out / transmits sound e.g. headphones / a speaker

Online Safety Focus

- Know that the person who **records** the **audio** can say who is allowed to use it
- Know that we cannot copy someone else's work e.g. **downloading audio** from the internet, without **permission**
- Know some of the consequences of **downloading** without **permission** e.g. a fine

Key Computing Skills and Knowledge

- Know the features of a **podcast** e.g. introduction, sound effects / jingles etc.
- Know how to save a **digital recording** as a **file**
- Know how to retrieve a previously saved **digital recording file**
- Know how to **edit** a **digital recording file**
- Know that additional sounds can be added to a voice **recording** e.g. sound effects / background music
- Know how to **record, play, delete, trim** and adjust the **volume** of sound in **Audacity**
- Know some things that make a good **recording** e.g. having a clear voice, one person speaking at a time, no background noise etc
- Know that the taller **peaks** on a **soundwave** indicate louder noises and the smaller / flat lines indicate quieter noises / silence
- Know that the **time shift tool** allows **audio tracks** to be moved left and right
- Know that multiple **audio tracks** can be played at the same time
- Know how to **export** a finished **recording** from **Audacity** to be **saved** as an **MP3 file**
